Military Course ID	ACE Identifier Course Title Location-Description-Credit Areas	Dates Taken	ACE Credit Recommendation	Level
--------------------	---	-------------	------------------------------	-------

X-777-7770	NV-2202-0014 V0 28-JUL-1987 to 27-SEP-1987 Basic Military Training: To assimilate recruits into the Navy way of life and to prepare them for further advanced training in specialized Navy occupations.			
	<ul style="list-style-type: none"> • First Aid And Safety • Personal Fitness/Conditioning • Personal/Community Health (10/79)(10/79)	2 SH 1 SH 1 SH	L L L	

A-060-0011	NV-2202-0148 V01 03-OCT-2005 to 18-NOV-2005 Basic Enlisted Submarine: Submarine School, New London Groton, CT Upon completion of the course, the student will be able to describe the function of components of shipboard mechanical systems.			
	<ul style="list-style-type: none"> • General Mechanical Systems (10/89)(1/98)	3 SH	V	

A-100-0316	NV-1715-2173 V01 05-DEC-2005 to 19-JAN-2006 Electronics Core Apprentice Technical Training: Naval Submarine School Groton, CT Upon completion of the course, the student will be able to address basic electronic technical areas to include direct			
------------	---	--	--	--

and alternating current, analog and digital devices, and other associated devices and subsystems as applied to submarines.

- Ac Circuits 1 SH L
- Basic Digital Circuits 1 SH L
- Dc Circuits 2 SH L
- Solid State Devices 3 SH L

(9/06)(9/06)

A-531-0767 NV-1715-2114 V01 20-JAN-2006 to 07-FEB-2006

Tactical Computers and Network Operator:

Naval Submarine School
Groton, CT

Upon completion of the course, the student will understand functional, physical, documentation descriptions, and operation of a tactical computer and network.

- Computer And Network Systems Administration 3 SH L

(4/05)(4/05)

A-101-0243 NV-1715-2101 V01 23-MAR-2006 to 14-APR-2006

Extremely High Frequency (EHF) AN/USC-38 (V) 1 Operator:

Naval Submarine School
Groton, CT

Upon completion of the course, the student will be able to give a physical, functional, and operational description of NESP, NESP-CEG, NESP-ANT, and NESP-system for EHF operation of satellite receiving system.

- Credit Is Not Recommended SH

(4/05)(4/05)

A-233-0114 NV-1402-0293 V01 12-JUL-2006 to 22-AUG-2006

Trident ESM Operator:

Trident Training Facility
Kings Bay, GA

Upon completion of the course, the student will be able to operate the AN/UPX-28 transponder set, the AN/WLR-8 counter measure receiving set, and the Type 15L periscope.

- Basic Radar Principles 2 SH L

(4/07)(4/07)

0321B MC-2204-0145 V02 01-JAN-2009

The M240G Machine Gunner By Correspondence:

Marine Corps Institute
Washington, DC

Upon completion of the course, the student will be able to operate a machinegun in a machinegun squad; have a knowledge of the characteristics, nomenclature, and functioning of the M240G machinegun; clean, disassemble, assemble and functional check of the M240G machinegun; mounting, loading and unloading, firing, zeroing, and troubleshooting the M240G machinegun; and demonstrate knowledge of AN/PAS-13B medium weapon thermal sight and the AN/PVS-17C miniature night sight.

- Small Arms/Gunsmithing 1 SH L

NOTE: MCI designates a minimum passing score at 65%.

(6/08)(7/15)

V-4C-0013 NV-1715-2041 V03 22-FEB-2010 to 12-MAR-2010

Electronic Key Management System:

Center for Information Dominance, Learning Site Mayport
 Mayport, FL

Upon completion of the course, the student will be able to identify fundamental aspects of communication security; apply concepts of physical security, transmission security, cryptosecurity, and emission security to prevent unauthorized access to information; implement electronic key management system (EKMS) policies and procedures; identify and describe communication security (COMSEC) material; apply public and private key practices to the distribution and exchange of keys; describe the appropriate measures for electronic and physical destruction of keys and related equipment and containers.

- Network Security Management 4 SH U
- (9/10)(9/10)

A-012-0077 **NV-1406-0044 V02** 29-NOV-2010 to 10-DEC-2010
Instructional Delivery Continuum (IDC) - Journeyman Instructor Training (JIT)- Basic Instructor - Automated Electronic Classroom (AEC) (Basic Instructor):

Center for Naval Leadership Site
 Groton, CT

Upon completion of the course, the student will be able to deliver lectures employing recitation, questioning, self and group-paced methods of instruction, technology aids, and case study techniques. They will also be able to apply some motivational techniques to encourage learning.

- Instructional Methodology 3 SH L
- (4/05)(1/06)

A-531-1900 **NV-1402-0296 V01** 28-MAR-2012
Joint Cyber Analysis:

Center for Information Dominance, Learning Site Corry Station
 Pensacola, FL

Upon completion of the course, the student will be able to identify basic computer components; apply Windows and UNIX management and configuration; implement object-oriented programming, shell scripting, and Windows batch files; apply router security implementation and advanced packet analysis; apply wireless network procedures; identify enumeration, exploitation, track covering, and backdoors on networks; complete security scanning and intrusion analysis; apply various security measures to prevent unauthorized information access; and apply forensic and malware analysis.

- C Programming 3 SH L
- Cisco Routers And Routing Basics 3 SH L
- Computer Programming Scripting Development 3 SH L
- Computer Technology 3 SH L
- Data Communications 3 SH L
- Introduction To Programming 3 SH L
- Introduction to Information System Security 3 SH L
- Information Assurance 3 SH U

(9/10)(9/10)

A-531-0021 **NV-1402-0232 V04** 01-NOV-2013 to 23-NOV-2013
Navy Tactical Command Support System (NTCSS) II Manager:

Center for Information Dominance
 Corry Station, Pensacola, FL

Upon completion of the course, the student will be able to understand the fundamentals of computer software and hardware; apply basic computer operations including the management of files, discs, users and groups; configure personal computers and printers; and describe local area networks (LANs) and the basics of computer systems security.

- Information Systems Technology 3 SH L
(6/13)(6/13)

Military Experience

Occupation ID	ACE Identifier Title Description-Credit Areas	Dates Held	ACE Credit Recommendation	Level
---------------	---	------------	------------------------------	-------

NER-SR **NONE ASSIGNED** 28-JUL-1987
Seaman Recruit:
 To assimilate recruits into the Navy way of life and to prepare them for further advanced training in specialized Navy occupations.
 • None

NER-SA **NONE ASSIGNED** 31-OCT-1987
Seaman Apprentice:
 Apprentice training to further advanced training in specialized Navy occupations.
 • None

SN **NER-SN-001** 16-JUL-1989
Seaman:
 Performs all basic seamanship functions aboard ship that involve line or wire, including knot tying, whipping and seizing, and rigging used to secure the ship to a pier, moor, or anchor; is able to identify functions of navigation and shipboard equipment, including fixed or portable items and power or non-powered items; lowers, raises, and launches life saving equipment; handles small boats; navigates by using several different types of compasses; keeps records by degrees or points; knows navigational aids, nautical rules of the road, and the buoys of inland waters of the U.S.; knows the nomenclature of decks, superstructures, and parts of the hull; knows the purpose and limitations of first aid and the first aid treatments for electrical shock, simple and compound fractures, heat exhaustion, heat stroke, and burns; must be qualified as a Swimmer Fourth Class, requiring floating for a minimum of five minutes, preparing and using clothing and buoyant object for staying afloat, and swimming through oil, flames, and debris; knows how to determine the classes of fire hoses and how to use carbon dioxide, dry chemical, and water portable fire extinguishers; knows the function of the typical fire main system, fixed carbon dioxide system, water wash down system, and magazine sprinkling system; knows the difference between flooding and progressive flooding and the dangers involved.

- First Aid and Fire Science on the Basis of Institutional Evaluation SH L
- Seamanship 3 SH L
- Small Boat Operation (Boat Coxswain) 3 SH L
- Swimming (Swimmer First Class Only) 1 SH L

(12/76)(12/76)

IC3 **NER-IC-001** 01-JUN-1992
Interior Communications Electrician:
 Operates and performs maintenance on voice interior communications systems, alarm systems, warning systems, ship's control systems, plotting systems, gyrocompass systems, and entertainment systems. Operates standard test and metering equipment, including multimeter, voltmeter, ammeter, ohmmeter, oscilloscope, signal generator, frequency meter, vacuum tube voltmeter, and megger; makes standard wire splices; tests and operates alarm and indicating systems; troubleshoots and repairs synchro systems; inspects, tests, maintains, charges, and replaces batteries; repairs components of general announcing systems and sound-powered telephone systems; cleans and inspects plotters and dead reckoning equipment; tests external circuits of interior communications equipment for continuity, short circuits, and grounds and measures electrical quantities; reads and interprets schematic diagrams

and blueprints of basic electrical, electronic, and logic circuits.

- Electrical/Mechanical Systems 4 SH V
- Troubleshooting Techniques 4 SH V

(10/87)(10/87)

IC1 **NER-IC-002** 16-JUN-1999

Interior Communications Electrician:

Operates and performs maintenance on voice interior communications systems, alarm systems, warning and indicator systems, ship's control systems, plotting systems, gyrocompass systems, and entertainment systems. Operates electronic test and metering equipment, including multimeter, voltmeter, ammeter, ohmmeter, oscilloscope, signal generator, frequency meter, vacuum tube voltmeter, and megger; makes standard wire splices; tests and operates alarm and indicating systems; troubleshoots and repairs synchro systems; inspects, tests, maintains, charges, and replaces batteries; repairs components of general announcing systems and sound-powered telephone systems; cleans and inspects plotters and dead reckoning equipment; tests external circuits of interior communications equipment for continuity, short circuits, and grounds and measures electrical quantities; reads and interprets schematic diagrams and blueprints of basic electrical, electronic, and logic circuits. Troubleshoots and repairs ship's metering, alarm, and indicating systems; troubleshoots and repairs synchro-amplifiers, servo systems, and tape recorders/producers; maintains microfiche readers/printers; isolates and repairs malfunctions in common electronic circuits; inspects and cleans commutators and adjusts brushes on motors and generators; inventories installed equipment and spare parts; supervises up to three third class Interior Communications Electricians. Isolates troubles in dead-reckoning systems including gyrocompass; tests, replaces, and adjusts components on the interior communication and local switchboards; determines types of acceptable substitute components; checks operating logs and maintenance records; prepares weekly reports and maintenance schedules; supervises up to five Interior Communications Electricians.

(6/99)(6/99)

9502 **NEC-9502-002** 28-DEC-2002

Instructor:

Knows lesson planning, instructional strategies, selection of visual aids, and teaching skills; designs lessons from

a body of content; develops behavioral objectives; prepares test items; evaluates instructional materials and the results of instruction; presents material clearly; possesses platform (teaching) skills.

- Instructional Media 3 SH L
- Interpersonal Communication 3 SH L
- Principles of Speech 3 SH L
- Instructional Strategies and Methods 3 SH U
- Student Teaching 3 SH U

(12/01)(12/01)

9502 **NEC-9502-003** 28-DEC-2002

Instructor:

Individuals direct teaching and learning activities in schools, training centers, and selected reserve units; write learning objectives; prepare test items; evaluate instructional materials and results; and counsel students on academic learning problems.

- Introduction To Teaching And Learning 3 SH L
- Public Speaking 3 SH L

(11/07)(11/07)

9502 **NEC-9502-004** 28-DEC-2002

Instructor:

Directs teaching/learning activities in schools, training centers and selected reserve units; and evaluates instructional materials and counsel students on academic learning problems.

- Fundamentals Of Training 3 SH L
- Introduction To Teaching And Learning 3 SH L
- Speech 3 SH L

(2/13)(2/13)

MTS **CER-MTS-001** 01-DEC-2004

Master Training Specialist (MTS):

Applies effective instructional techniques; develops, implements, and evaluates curricula, instructions, and course supporting materials; conducts in-service training; conducts instructor evaluations; conducts formal course reviews.

- Speech or Public Speaking 3 SH L
- Curriculum Design and Development 3 SH U
- Student Teaching 3 SH U

(12/01)(12/01)

MTS **CER-MTS-002** 01-DEC-2004

Navy Master Training Specialist (MTS):

The objective of this program is to create a cadre of personnel with advanced knowledge and capabilities to perform adjunct training management functions including: conducting in-service training, general military training, ensure a successful command MTS Mentor program.

- Learning Framework 3 SH L
- Educational Leadership 3 SH U
- Instructional Methodology 3 SH U

(9/09)(9/09)

MTS CER-MTS-003 01-DEC-2004

Master Training Specialist (MTS):

Applies effective instructional techniques; develops, implements, and evaluates curricula, instructions, and course supporting materials; conducts in-service training; conducts instructor evaluations; and conducts formal course reviews.

- Principles Of Curriculum Development 3 SH L
- Supervision 3 SH L
- Instructional Leadership 3 SH U

(2/13)(2/13)

ETC NER-ET-008 16-FEB-2010

Electronics Technician (Submarine):

Operate and perform maintenance on electronic equipment used for detection, tracking, recognition and identification, aids to navigation, radar, interior communications, alarm, warning, ship's control, entertainment, gyrocompass and plotting, electronic warfare systems, and instrumentation and control; operate and perform maintenance on general purpose test equipment, personal computers, and auxiliary equipment; operate, monitor, and control information systems in support of the world-wide telecommunications network; perform assigned mission organizational level maintenance and repair of Command, Control, Communications, Computer and Intelligence Systems; and stand watch on related equipment. Responsible for all previous occupational standards in addition to naval standards.

- Ac/Dc Circuits 4 SH L
- Automated Control Systems 3 SH L
- Digital Communication Systems 4 SH L
- Electronic Troubleshooting And Repair 2 SH L
- Instrumentation 3 SH L
- Management 3 SH L
- Radar Systems 3 SH L
- Supervision 3 SH L

(6/09)(6/09)

ICC NER-IC-003 16-FEB-2010

Interior Communications Administrator:

operate and perform organizational and intermediate maintenance on alarm, warning, and indicator systems; interior communications; and ship's control, entertainment, and navigation systems. Operates, troubleshoots and performs on interior communication systems, navigation systems, hydraulic systems, alarm sensing devices, and auxiliary power systems; collects alarm, safety and warning systems maintenance data and Bell ordering systems; documents equipment status; maintains fiber optic cables and connectors, and administrative records; operates visual landing aid systems; collects ships speed system data, value positioning indicators, wind speed and direction systems; inspects work area, tools and electronic systems equipment; interprets blueprints and ships drawing, electronic schematics, mechanical drawings, and technical manuals; maintains networking systems, pneumatic air systems, ships console control systems and steering control systems; operates crew served

weapons; test equipment and value systems; and repairs electrical, mechanical and communication systems.

Maintains custody of classified material; evolution briefing; supervise ships speed systems operation; draft messages for transmission; inventory network software; network security; provides training operations; develops; evaluates; and configures training.

Manages alarm; safety and warning systems; coordinates equipment certification; manage administrative programs; monitors navigation systems; network systems operations; and power generation and distribution systems.

Performs duties of an Interior Communications Administrator; manages network software; approves equipment installation; maintains password accounts; analyzes and evaluates all the IC rates duties: tests, repairs, and tasks; writes technical reports; estimates time, material, and personnel required to perform tasks and projects assigned.

- Project Management 3 SH U

(9/09)(9/09)

ETN1 NER-ETN-002 01-JAN-2014

Electronics Technician, (Nuclear):

Operates and maintains Naval Nuclear propulsion plants and associated equipment; supervises and administers Naval Nuclear propulsion plant operations; thoroughly understands reactor, electrical, and mechanical theory involved in the operation of the nuclear reactor, steam plant, propulsion plant, and auxiliary equipment; possesses a detailed knowledge of reactor and steam plant chemistry and radiological controls; operates and performs organizational and intermediate maintenance on electronic equipment used for reactor control, instrumentation, measurement, alarm warning, power distribution, protection and airborne particulate radiation detection; operates General Purpose Test Equipment (GEPTE) and auxiliary equipment; tests, calibrates, maintains, and repairs electronic and hydraulic-electric systems that support reactor plant operation on both surface and subsurface ships. Operates electric plant for various conditions; repairs nuclear instrument and control systems; repairs nuclear instruments and control systems; cleans and inspects rod control systems; inspects static variable frequency controller; calibrates steam generator water level control; maintains operational safety; and promotes radiological safety. Performs primary plant control system preventive maintenance (PMS); monitors nuclear instrumentation systems maintenance operations; repairs hydraulic mechanical indicators and nuclear instrumentation systems; repairs rod control systems and rod positions indicator systems; monitors rod control system maintenance operations; and conducts training on remote operability.

(1/13)(1/13)

ETRC NER-ETR-002 01-FEB-2014

Electronics Technician, (Communications):

Operates and maintains electronic equipment used for detection, tracking, recognition and identification, communications, communication security, and Electronic Warfare (EW); operates and maintains General Purpose Test Equipment (GPTE), personal computers, and auxiliary equipment; operates, monitors, and controls Information Systems (IS) in support of the worldwide telecommunications network; performs assigned mission organizational level maintenance and repair of Command, Control, Communications, Computers, and Intelligence (C4I) Systems; and stands watch on related equipment. Inventories local area networks (LAN) hardware; safeguards classified materials; executes disaster recovery and emergency action plans; operates ultra-high frequency (UHF), very high frequency (VHF) and very low frequency (VLF) systems; operates radar systems; cleans and inspects antenna access; demonstrates cultural awareness; schedules resources, employees and operations; coordinates projects; communicates orally and in writing; demonstrates computer software applications; operates database and records; utilizes software scheduling applications; stores and retrieves data; and transfers files. Maintains information systems records; installs computer and network components; repairs antenna systems; repairs ultra-high frequency (UHF), very high frequency (VHF) systems, and very low frequency (VLF) systems; troubleshoots UHF, VHF, and VLF systems, configures network security tools; and configures workstation software. Reviews LAN component inventories. Manages and supervises electronic Key Management Systems (EKMS) accounts; develops information system policies; identifies career paths; monitors employee, financial, social and insurance matters; prioritizes resource planning and scheduling; establishes motivation and morale methods; produces training presentations; manages conflict resolution, problem solving and decision-making; executes interpersonal communication skills; analyzes and establishes record, reports and standards; prioritizes strategic planning; plans, directs, organizes, schedules, and evaluates training programs for personnel; prepares and reviews Naval correspondence, instructions, and messages; reviews and coordinates work schedules; prioritizes overall department work; coordinates and evaluates status and impact of department work; reviews, recommends, and monitors divisional programs (quality assurance, training, safety, etc.); provides guidance on job performance; identifies and mediates inter-departmental differences; assists, reviews, recommends, and monitors the implementation of policy statements, operation orders, and directives;.

MMEC NER-MME-001 01-MAR-2014

Machinist's Mate (Auxiliary):

Operates, maintains, and repairs (at the organizational and intermediate level) damage control equipment and systems, internal combustion diesel engines and diesel engine support systems, hydraulic systems, atmosphere control and oxygen-generating equipment, refrigeration systems, compressed air and gas systems, potable water system, seawater systems and sanitary and plumbing systems. Performs inspections, operations, maintenance, troubleshooting and repairs for shipboard pumps, valves and piping, hydraulic systems, refrigeration systems, cooling, heating and ventilation systems, shipboard steering systems, high pressure, low pressure air systems and

compressors; lubricates, cleans, and the repays diesel engines and associated auxiliary equipment; and performs safety procedures including lock-out and tag-out of various electrical hydraulic and high pressure air systems; performs inspections, maintenance, troubleshooting and operations of shipboard firefighting, watertight hatches, safety equipment and, life support systems; demonstrates cultural awareness; schedules resources, employees, and operations; coordinates projects; communicates orally and in writing; demonstrates computer software application knowledge; operates database and records; utilizes software and scheduling application, stores and retrieves data; and transfers files. Provides oversight for the quality assurance inspections on the hydraulics, diesel engine, steering, emergency life support systems, valves, pumps, ventilation, heating, cooling, high pressure air, hydraulics, safety, life support, watertight hatches and doors;. Provides supervision and oversight for the quality assurance and directs corrective maintenance actions for the hydraulic systems, diesel engines, cooling, ventilation, heating steering and life support systems. Plans, directs, organizes, schedules, and evaluates training programs for personnel; prepares and reviews Naval correspondence, instructions, and messages; reviews and coordinates work schedules; prioritizes overall department work; coordinates and evaluates status and impact of department work; reviews, recommends, and monitors divisional programs (quality assurance, training, safety, etc.); provides guidance on job performance; identifies and mediates inter-departmental differences; and assists, reviews, recommends, and monitors the implementation of policy statements, operation orders, and directives.

MMNC NER-MMN-001 01-APR-2014

Machinist's Mate (Nuclear):

Operates and maintains Naval Nuclear propulsion plants and associated equipment; supervises and administers Naval nuclear propulsion plant operations; thoroughly understands reactor, electrical, and mechanical theory involved in the operation of the nuclear reactor, steam plant, propulsion plant, and auxiliary equipment; possesses a detailed knowledge of reactor and steam plant chemistry and radiological controls; operates, maintains, and repairs (organizational and intermediate level) ship propulsion machinery, auxiliary equipment, and outside machinery, such as: air compressors, distilling plants, propulsion turbines, electric power generation turbines, shaft line components, and air conditioning equipment; operates and maintains propulsion plant systems (organizational and intermediate level) such as feed and condensate, steam, hydraulic, seawater systems, air, potable water, lubricating oil and oil purification, reactor auxiliary and support systems, pumps, valves, and heat exchangers; performs tests, transfers, and inventory of lubricating oils, fuels, and water; maintains records and reports; and generates and stows industrial gases on both surface and sub-surface ships. Inspects propulsion throttle control systems and valve operating system components; aligns hydraulic, high pressure air and drain systems and reactor systems; cleans auxiliary exhaust and steam system components; cleans propulsion lube oil and turbine components; lubricates and monitors propulsion turbine throttle controls systems; operates hydraulic systems, engines and primary valves; demonstrates cultural awareness; schedules resources, employees and operations; coordinates projects; communicates orally and in writing; demonstrates computer software applications; operates databases and records; utilizes software scheduling application; stores and retrieves data information and transfers

files. Inspects pneumatic and main steam components; repairs propulsion plant valves and pumps; repairs secondary support systems; troubleshoots pneumatic and primary systems; troubleshoots steam systems; tests hydraulic system components; and maintains radiological controlled area records. Conducts remote operability training; supervises shutdown watch section operations; supervises underway watch sections operations; verifies condition established to prevent discharge; qualifies as engineering watch supervisor; performs quality assurance inspections; and supervises auxiliary equipment services. Conducts shipboard pre-underway checks; coordinates department maintenance operations; coordinates equipment modification procedures; manages performance data collection operations; supervises division maintenance operations; supervises reactor fill systems repair procedures; supervises reactor system testing procedures; identifies career paths; monitors employee, financial, social and insurance matters; prioritizes resource planning and scheduling; establishes motivation and morale methods; produces training presentations; manages conflict resolution, problem solving and decision-making; executes interpersonal communication skills; analyzes and establishes record, reports and standards; prioritizes strategic planning; plans, directs, organizes, schedules, and evaluates training programs for personnel; prepares and reviews Naval correspondence, instructions, and messages; reviews and coordinates work schedules; prioritizes overall department work; coordinates and evaluate status and impact of department work; reviews, recommends, and monitors divisional programs (quality assurance, training, safety, etc.); provides guidance on job performance; identifies and mediates inter-departmental differences, and assists, reviews, recommends, and monitors the implementation of policy statements, operation orders, and directives.

MMWC NER-MMW-001 01-MAY-2014

Machinist's Mates (Weapons):

Performs organizational and intermediate level maintenance on test equipment, launching and firing systems, and stowage facilities associated with underwater ordnance, to include hydraulic systems, air systems, and seawater systems associated with launching/firing systems; performs organizational maintenance on underwater ordnance, small arms, and ammunition; prepares underwater ordnance for launching to include conducting post fire and post run routines; and performs operations and organizational maintenance on submarine anchoring systems. Cleans, inspects and operates anchor systems; cleans and inspects magazines and lockers; inventories arms, ammunition and explosives; inspects and operates capstones; conducts combat damage control operations in the torpedo room; inspects and operates air system components; inspects and operates submarine launched torpedoes, mine, missiles and pyrotechnic devices; demonstrates cultural awareness; schedules resources, employees and operators; coordinates projects; communicates orally and in writing; demonstrates computer software applications, operates, database and records; utilizes software scheduling applications; stores and retrieves data; and transfers files. Maintains arms, ammunition and explosives records; maintains weight test and calibration records; troubleshoots air systems components; troubleshoots hydraulic systems components; troubleshoots shipboard valves; operates general purpose electronic test equipment; inspects and operates submarine launched mines, missiles and torpedoes; functions as a quality assurance inspector; maintains and operates various submarines weapons launchers; and directs weapons rigging operations. Directs torpedo room fire casualty procedures;

directs weapons emergency procedures; conducts weapons delivery evolutions; manages weapons delivery system operations; conducts and manages vertical launch systems operations; manages weapons shipping operations; and maintains ordnance handling certification records. Identifies career paths; monitors employee performance; coaches on family, financial, social and insurance matters; prioritizes resource planning and scheduling; establishes motivation and morale methods; produces training presentations; manages conflict resolution, problem solving and decision-making; executes interpersonal communication skills; analyzes and establishes records, reports and standards; prioritizes strategic planning; plans, directs, organizes, schedules, and evaluates training programs for personnel; prepares and reviews Naval correspondence, instructions, and messages; reviews and coordinates work schedules; prioritizes overall department work; coordinates and evaluates status and impact of department work; reviews, recommends, and monitors divisional programs (quality assurance, training, safety, etc.); provides guidance on job performance; identifies and mediates inter-departmental differences, and assists, reviews, recommends, and monitors the implementation of policy statements, operation orders, and directives.

ETVCM

NER-ETV-001 01-JAN-2015

Electronic Technician (Navigation):

Conducts pre-underway navigation checks; determines buoy systems; maintains chart inventories; maintains electronic navigation systems; operates and maintains Gyro repeater systems; operates and repairs atmospheric monitoring systems; repairs servo operated valves; demonstrates cultural awareness; schedules resources, employees and operations; coordinates projects; communicates orally and in writing; demonstrates computer software applications; operates database and records; utilizes software scheduling applications; stores and retrieves data information; and transfers files. Cleans, maintains and operates information technology (IT) systems; conducts shipboard navigation; trains junior personnel; analyzes schematic diagrams; prepares trouble and failure reports; maintains internal communication systems; and troubleshoots and repairs navigations electronic systems. Prepares movement reports; determines chart allowance; plots moving havens; extracts operational information from operational orders; decodes signals using allied tactical publications; and computes radar bearings and range errors. Performs watch standing skills; evaluates and monitors vessel passage plans, establishes and monitors team performance; monitors and adjusts for changes of group dynamics; prepares and plans for emergency procedures; operates and interprets electronic chart display information system data; enters data and plans voyages in voyage management systems; tracks targets and maintains collision avoidance plots on automatic radar plotting aid (ARPA); appraises rules of the road situations; and analyzes electronic chart display information system (ECDIS) and ARPA information for risk determination; identifies career paths; monitors employee, financial, social and insurance matters; prioritizes resource planning and scheduling; establishes motivation and morale methods; produces training presentations; manages conflict resolution, problem solving and decision-making; executes interpersonal communication skills; analyzes and establishes record, reports and standards; prioritizes strategic planning; plans, directs, organizes, schedules, and evaluates training programs for personnel; prepares and reviews Naval correspondence, instructions, and messages; reviews and coordinates work schedules;

prioritizes overall department work; coordinates and evaluates status and impact of department work; reviews, recommends, and monitors divisional programs (quality assurance, training, safety, etc.); provides guidance on job performance; identifies and mediates inter-departmental differences; and assists, reviews, recommends, and monitors the implementation of policy statements, operation orders, and directives. Plans, directs, organizes, schedules, and evaluates training programs for personnel; prepares and reviews naval correspondence, instructions, and messages; reviews and coordinates work schedules; prioritizes overall department work; coordinates and evaluates status and impact of department work; reviews, recommends, and monitors divisional programs (quality assurance, training, safety, etc.); provides guidance on job performance; identifies and mediates inter-departmental differences; and assists, reviews, recommends, and monitors the implementation of policy statements, operation orders, and directives.

09-FEB-2011	Technical Writing	3	46	55			

Defense Language Proficiency Test (DLPT)

Date Taken	Title	Student Score	ACE Recommended Listening	ACE Recommended Reading	ACE Recommended Speaking
01-SEP-2010	Spanish	3	4L&6U		
15-SEP-2010	Spanish	3+			4L&7U
01-SEP-2012	Spanish	2+			

Exams taken after 31 October 2011 may have recommended college credit via the ACE National Guide.
 Go to <http://www2.acenet.edu/credit/?fuseaction=browse.getOrganizationDetail&FICE=190163> and look for your exam.

Other Learning Experiences

This section provides a record of the service member's learning experiences that do not have credit recommended for one or more of the following reasons:

- (1) Course has not been evaluated by ACE.
- (2) Class attendance dates were not recorded in the service member's record.
- (3) Course was not completed during the ACE evaluation period.
- (4) Course was not evaluated by ACE at this specific location.

Course ID	Date Taken	Title	Location	Reason

JST Official Transcript Explanation

The American Council on Education (ACE) is the nation's unifying voice for higher education. ACE serves as a consensus leader on key higher education issues and seeks to influence public policy through advocacy, research, and program initiatives. ACE's Military Programs evaluates formal service courses and occupations approved by a central authority, employing the services of subject-matter specialists from colleges and universities (professors, deans, and other academicians) that, through the discussion and the application of evaluation procedures and guidelines, reach consensus on content, description, and amount of credit to be recommended for selected courses and occupations. For comprehensive information on the ACE Military Evaluation process, consult the Course and Occupation Evaluation Systems, described in the online Guide to the Evaluation of Educational Experiences in the Armed Services at: <http://www.acenet.edu/higher-education/topics/Pages/College-Credit-for-Military-Service.aspx>.

ACE, the American Association of Collegiate Registrars and Admissions Officers (AACRAO), and the Council for Higher Education Accreditation have developed a set of guidelines contained in the Joint Statement on the Transfer and Award of Credit (<http://www.acenet.edu/news-room/Pages/Joint-Statement-on-the-Transfer-and-Award-of-Credit.aspx>) that are intended to serve as a guide for institutions developing or reviewing policies dealing with transfer, acceptance and award of credit for courses and occupations completed in a variety of institutional and extraintitutional settings, including the military. More information on guidelines for awarding credit for courses and occupations appearing on JST transcripts is contained in The AACRAO 2003 Academic Record and Transcript Guide.

Service members may request copies of JST transcripts directly from the Operation Centers at <https://jst.doded.mil>. ACE does not issue these transcripts or make any adjustments to missing or incorrect information contained in them. Service members must contact the respective service specific Operations Centers for adjustments or corrections to the transcripts. Colleges and universities may also receive web-based official copies of these documents by contacting the JST Operations Center at jst@doded.mil.

Understanding JST Transcripts

The full exhibit and description for courses and occupations listed on JST transcripts can be found in the Guide to the Evaluation of Educational Experiences in the Armed Services which is available only online at: (<http://www.acenet.edu/news-room/pages/military-guide-online.aspx>) and updated on a daily basis as new courses and occupations are evaluated for recommended credit.

Key to transcript terms:

Military Course ID - This is the number the military service has assigned for this particular course.

SH - Semester hours.

ACE Identifier - The number ACE assigns a particular course. Courses are identified by a 2-letter prefix that designates the military service (AF - Air Force, AR - Army, CG - Coast Guard, DD - Department of Defense, MC - Marine Corps, and NV - Navy), followed by a unique eight-digit course identifier.

ACE Credit Recommendation is listed in semester hours, in the following categories:

V = Vocational; L = Lower level (freshman or sophomore level); U = Upper level (Junior or Senior Level); G = Graduate level.

Dates Taken/Dates Held - Courses and occupations will normally have a start and end date that will show the time period the course was completed or the occupation was held.

Location - Valid location(s) where the course was completed.

Occupational Codes:

Army MOS:

MOS - Army MOS has 5 digits. The first 3 digits identify the occupational specialty and the last 2 digits identify the skill level (E1-E4 = skill level 10; E5 = skill level 20; E6 = skill level 30; E7 = skill level 40; E8 = skill level 50; E9 = skill level 60).

Navy Rates and Ratings:

NER - Navy enlisted rates are occupation identifications assigned to personnel at paygrades E-1 to E-9. Each general rate involves the performance of entry-level tasks and leads to one or more ratings. Career patterns from recruit to master chief petty officer are identified by 4 to 5-digit codes.

NEC - The NEC Structure supplements the Enlisted Rating Structure by identifying skills requiring more specific identification than that provided by general rates and ratings and that are not rating-wide requirements. Selected NECS have been evaluated by ACE to date.

LDO, NWO - Limited Duty Officer, Navy Warrant Officer - Technical officer specialists who perform duties that are technically oriented, with skills acquired through experience and training that are limited in scope to other officer categories. These specialties are normally identified by 4 digits, each successively providing more precise identification of the individual holder.

Marine Corps:

MCE - an MOS has 4 digits and a descriptive title; the first 2 digits normally describe the occupational field and the last 2 digits identify the promotional level and specialty within the occupation.

MCO - officer MOS.

Coast Guard:

CGA - Coast Guard officer aviation competencies.

CGR - Enlisted rating structure used for classified enlisted personnel and qualifications, with career levels from recruit to master chief petty officer.

CGW - Coast Guard Warrant Officers are technical officer specialists who perform duties that are technically oriented and acquired through experience and training that is limited in scope and relation to other officer categories.

MATMEP - Maintenance Training Management and Evaluation Program, a standardized, documentable, level-progressive, technical skills management and evaluation program for enlisted aviation technical maintenance training. The Summary sheet submitted by the service member lists the current level of training completed and should be used by the evaluator to verify the attained level in awarding credit.

DANTES - The Defense Activity for Non-Traditional Education Support maintains the educational records of the service members who have completed DANTES subject Standardized Tests (DSSTs), CLEP examinations, and GED tests. For examinations administered at military installations, results of these tests may appear on JST transcripts for consideration in the award of the recommended credit. However, individual colleges and universities may reserve the right to request official scores directly from ETS or DANTES, to confirm completion of these exams and the credits recommended.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP) - The College-Level Examination Program or CLEP provides students of any age with the opportunity to demonstrate college-level achievement through a program of exams in undergraduate college courses. There are 2,900 colleges that grant credit and/or advanced standing for CLEP exams.
