Session Title: 75-character limit. TIPS: Keep your title concise and meaningful. Since your name and organization will be part of the session description, it is not necessary to include your organization's name in the title. The title will be used in the Annual Meeting printed program, website, and mobile app.

Session Description: 150-word limit. TIPS: Use the session description to articulate the comprehensive focus of your idea in a compelling manner. ACE Annual Meeting attendees are well versed in the current higher education landscape; therefore, the description does not need to reference broad statements and statistics, but should focus on the specific content of your session. Do not include speaker names or organizations in the session description as these are listed with each session. Bulleted lists are allowed. The session description will be used in the Annual Meeting printed program, website, and mobile app.
